

Testing what you believe you heard

Private, for you alone. Do not rush into major decisions today. You do not need to complete the nine tests this morning; they come over the following days and weeks.

This morning

- ☐ Sort each “What I sense” and “To test” card into one of the three categories below.
- ☐ Take no major action today.
- ☐ Do any immediately necessary safety action (see the box at the end).
- ☐ Schedule a conversation with my Eli, and with any qualified adviser the matter needs.
- ☐ For each card I am testing: start the testing worksheet (what I sensed, its category, two dates).

Then let the rest of the day be ordinary.

The three categories

Write each card's short title in its column.

Nothing significant	Low-risk and reversible	Major or high-impact
Nothing to test. Keep it in your journal; go on to Lesson 13.	Supported by Scripture and ordinary wisdom, easily undone, harmful to no one. Test it lightly, then do it.	Costly, hard to reverse, or affecting others substantially. Full testing, over weeks, with other people.

Is there anything I am reluctant to test? Why?

Reluctance to test is itself something to test.

My Eli conversation

Who: _____ When: _____

Bring the card, any tests completed so far, and the facts gathered. Ask them to help me test it, not to confirm it. Then ask three questions, and listen without defending:

1. What in this do you recognise as wise?
2. What concerns you?
3. What have I not considered?

The testing worksheet

What I sensed:

Category: ☐ nothing significant ☐ low-risk and reversible ☐ major or high-impact

Does the safety exception apply? ☐ yes (then act now, with help) ☐ no

Test	Notes	Supports	Raises concern	Not yet examined	Needs qualified advice
1. Scripture, in context		☐	☐	☐	☐
2. Character and fruit of Christ		☐	☐	☐	☐
3. Facts it depends on, and whether checked		☐	☐	☐	☐
4. Time given so far, and what has changed		☐	☐	☐	☐
5. Advisers consulted, and what each said		☐	☐	☐	☐
6. Safety, consent, justice, accountability		☐	☐	☐	☐
7. Secrecy, superiority, urgency, immunity from challenge		☐	☐	☐	☐
8. Proportionate, reversible first step		☐	☐	☐	☐
9. My present condition to decide		☐	☐	☐	☐

Testing begins: _____ **Review on:** _____

Verdict for now: ☐ act on the small step ☐ not yet, revisit on _____ ☐ let it go

"Not yet" is for incomplete evidence. A direction that clearly contradicts Scripture or requires wrongdoing is let go. Day 30 is not a decision deadline.

The safety exception. Waiting and testing do not apply to immediate danger, abuse, urgent medical care, legal reporting duties, or deadlines that cannot safely be postponed. Seek qualified help and take the safest necessary action now. Where abuse or danger is involved, leaving or seeking protection is a safety matter, not a decision that must wait for weeks of testing. In an abusive relationship, consult a domestic-abuse specialist privately. **If you are in immediate danger, call your local emergency number.**
